

RANA HAMMAD ALI

MERN Stack Developer | React Frontend Developer

ranahammad.hd@gmail.com • Lahore, Pakistan • GitHub: github.com/rana-hammad-dev • LinkedIn: linkedin.com/in/rana-hammad-ali

PROFESSIONAL SUMMARY

Motivated and detail-oriented MERN Stack Developer with 2+ years of hands-on experience building scalable, high-performance web applications using MongoDB, Express.js, React.js, and Node.js. Passionate about crafting clean, responsive frontends and robust RESTful APIs. Adept at translating business requirements into efficient technical solutions and continuously learning emerging technologies to deliver impactful digital products.

TECHNICAL SKILLS

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design, Tailwind CSS
Backend	Node.js, Express.js, REST API Design, JWT Authentication
Database	MongoDB, Mongoose ODM
Tools & DevOps	Git, GitHub, Vercel, VS Code, Postman, npm

PROJECTS

MediConnect – Appointment Management Platform | [MERN Stack](#)

March 2026 – May 2026

- ▶ Developed a full-stack healthcare appointment platform enabling patients to book, reschedule, and cancel appointments with real-time availability checks.
- ▶ Built RESTful APIs with Node.js & Express.js and designed a MongoDB schema to manage 500+ doctor-patient records efficiently.
- ▶ Implemented JWT-based authentication and role-based access control (RBAC) for Admin, Doctor, and Patient portals.
- ▶ Deployed the application on Vercel achieving 99% uptime; reduced average page load time by 40% through lazy loading and React code-splitting.

Tech Stack: MongoDB · Express.js · React.js · Node.js · JWT · Vercel

Notes App – Full-Stack CRUD Application | [React.js / Node.js](#)

April 2026 – May 2026

- ▶ Built a responsive notes management application with complete CRUD (Create, Read, Update, Delete) operations and persistent data storage via MongoDB.
- ▶ Designed an intuitive React UI with real-time state updates, search/filter functionality, and category tagging for improved usability.
- ▶ Integrated RESTful API endpoints ensuring secure data handling; tested all endpoints using Postman.

Tech Stack: React.js · Node.js · Express.js · MongoDB · REST API

ShopEase – E-Commerce Platform | [React.js \(Frontend\)](#)

June 2025 – Nov 2025

- ▶ Designed and developed a feature-rich e-commerce frontend in React.js with product listing, cart management, and checkout flow.
- ▶ Implemented React Context API for global state management, reducing prop-drilling and improving component reusability by 60%.
- ▶ Achieved fully responsive design compatible across mobile, tablet, and desktop viewports using CSS Flexbox and Grid.

Tech Stack: React.js · JavaScript · CSS3 · HTML5

EDUCATION

- ▶ Relevant coursework: Data Structures & Algorithms, Web Engineering, Database Systems, Software Engineering, Object-Oriented Programming.

ACHIEVEMENTS & CERTIFICATIONS

- ▶ Successfully delivered 2 full-stack production-ready projects within academic timeline, demonstrating consistent project execution skills.
- ▶ Completed self-directed learning in MERN Stack development — covering 200+ hours of hands-on coding, tutorials, and real-world project building.
- ▶ Active open-source contributor on GitHub with consistent commit history demonstrating collaborative and version-controlled development practices.
- ▶ Continuously improving through online platforms (freeCodeCamp, Udemy, YouTube) with focus on React best practices and Node.js architecture.

Available for full-time, part-time, and remote opportunities • Open to internship and freelance projects
